Guide to Item #18

- Course Title
- General Objectives (i.e.: overall objectives of the course)

This course/training is designed to

This course/training is based on/utilizes The National Occupation Standard (NOS) /National Vocational Qualification (NVQ)/ Caribbean Vocational Qualification (CVQ) Level 1/2/3/4/5 in _____

Content Outline/Focus

State each unit heading, its corresponding enabling objectives, enabling activities and underpinning knowledge, as necessary. Avoid redundancy by grouping factors that would be repeated; for example, if the underpinning knowledge is essentially the same for the units; create a heading after the "General Objectives" to capture the underpinning knowledge for the entire training curriculum.

Enabling objectives are:

The actions that the trainee will be able to perform as a result of the training; collectively, performing these actions adds up to meeting the performance criteria and the functions of the job. The Performance Criteria in the occupational standards provide useful guidance on the focus of the enabling objectives. Often, with well structured Occupational Standards, you can safely take the respective performance criterion, identify the action to be undertaken by the trainee in meeting each criterion, and phrase the enabling objective to precisely reflect this required action. For example, the performance criterion (treatment of customers is courteous and helpful) might suggest that the enabling objectives will likely begin as follows:

Unit 1 – Positive working relationships with customers

CVQ in Customer Service Level 2- CCA010-02 - Unit U09602

Instructional / enabling objectives

On completion of the unit, the participant will be able to:

- 1. read non-verbal cues and question customers in order to interpret customers' feelings accurately
- 2. acknowledge customers' feelings appropriately
- 3. respond to customers' complaints ...
- 4. ..

Underpinning Knowledge

- profile of the customer base of the company / department
- product and service knowledge
- product and service standards
- communication media: verbal, non-verbal, written ...
- communication barriers and facilitators

Enabling Activities

- role play of customer service activity depicting ...
- completing a customer profile worksheet

Unit 2 -

•	Essential materials/equipment required:
